

Project Definition

Title: Toll Management

Language(s) to be used: C

Description: Users can be identified as toll entering vehicles. Tariff rates for different vehicles can be charged and recorded according to the date. Collections can be viewed day-wise, Month-wise, and year-wise. The data can be shared between the functions. Toll details should also be viewed according to highway routes.

Assumption: Rules and regulations can be properly fixed and documented in the project report

Expected outcome: The system has to work for all conditions in Health Management without errors, all expected reports to be seen, User Interface to be good.
